Are you tired of paying for the old kind of life insurance? I'm talking about the kind that just pays a death benefit. With most new policies you can have living benefits. What are living benefits? Cash value. Not only that you can draw part of the death benefit up to 90%(depending on the plan) if a qualifying event occurs(l.e heart attack or cancer)! There are so many other uses as well, including mortgage protection which pays off the debt owed in the event of a death, leaving your loved ones with less to worry about! If you are interested in a quote or want to find out more information about the benefits these plans can offer, feel free to contact me at (636)-486-6775 or (636)-290-5915.
